

# Accounting Center Readiness Workshop

## 5 reasons to review your accounting center.

- 1 Outdated legacy systems are managing critical financial functions.
- 2 Relying on various ETL, accounting, and BI tools.
- 3 Lack of real-time financial data and reporting.
- 4 System does not easily accommodate organizational growth or changes.
- 5 Regulatory changes and increasing compliance.

## Manage your business, not your applications.

Failing to conduct a readiness assessment prior to deploying Workday Accounting Center can misalign your organizational needs and result in inefficiencies and user dissatisfaction. Without a clear understanding of your readiness, unexpected obstacles during implementation may arise, leading to delays and increased costs.

## Navigate Workday Accounting Center deployments through a readiness workshop.

The Groove's Accounting Center Readiness Workshop will help your organization identify gaps, challenges, or areas that need your immediate attention before starting your Workday deployment.

## Key deliverables

### Action plan for deployment

- Receive a deployment roadmap that encompasses project resourcing, organizational change impacts, business events, and technology requirements that lay the groundwork for a successful Accounting Center deployment.

### Proof of concept built in Workday

- Explore your accounting center data in recommended, aligned structures and scenarios directly in a Workday environment.

### Comprehensive readiness assessment

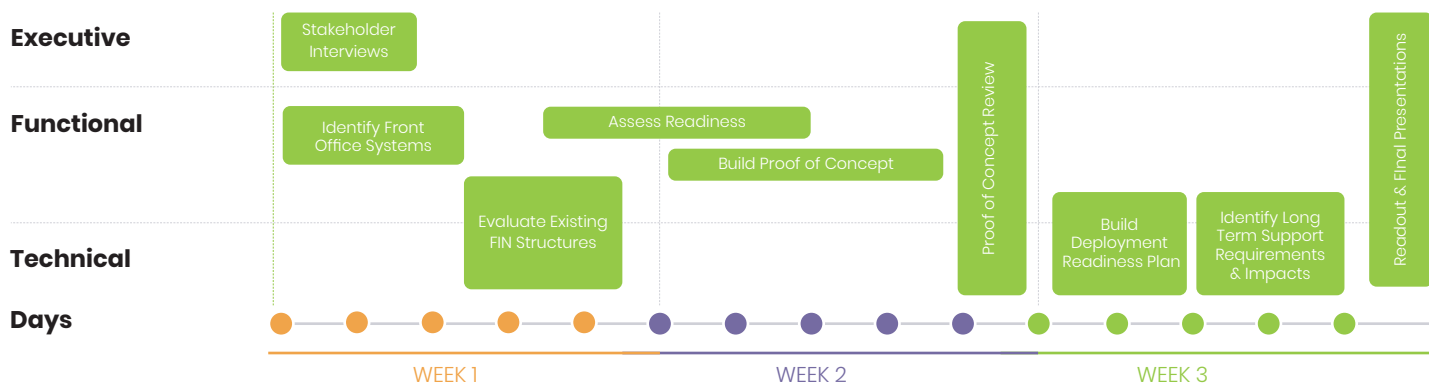

- Assess your organization's readiness for the deployment of a Workday Accounting Center.
- Address potential challenges and risks to minimize disruptions during the implementation.

### Future recommendations

- Get guidance on support needs and strategies for seamless scalability, minimizing maintenance and ensuring ongoing success.

## Assessment timeline

The Groove's Accounting Center Readiness workshop is a three-week engagement as defined by the included services above.

## Why The Groove
